Major corporations like Toyota, Wal-Mart, and BP are spending millions on making the environment a top priority – and with good reason. Whether it's Al Gore showing us the impact of global warming, or rising crude/oil prices pointing us to search for alternative energy sources, we've all become aware of the need to protect our natural resources.

ABOUT US

We are working to replace our old friend's paper & plastic bags, with something that does their job without creating needless waste or harming the environment.

Our Mission is simple: Create reusable products to protect our environment while increasing consumer consciousness of green alternatives. Shopping Bas India is dedicated in creating an environment with a difference... Our mission consists of two important keys:

Product Mission: To produce and sell the most eco-friendly reusable bags, while promoting business practices that respect the Earth and the Environment.

Social Mission: To urge people to think "GREEN" when shopping by refusing plastic bags in favor of eco-friendly reusable bags.

We produce environment-friendly, reusable bags and products for companies that want to go green and offer the choice of green to their customer.

We care about every aspect of your bag from the aesthetic look and design, to the best method of delivery to you or your customers. We work closely with you during every step of the process to ensure that you are happy with the product. We care about your brand and image and will do everything possible to create and deliver you a perfect product. In addition the quality control is meticulously monitored to ensure that all our products pass our highest quality standards. We will help your company look good, be socially responsible and perhaps be your first step in going green.

The fact is consumers love these products!!

Contact us today for more information to produce your own reusable bag that is custom to you.
